Hello fellow HAMs,
  My callsign is KD4ADQ, and I live in Lakeland, FL near Orlando.
My packet-BBS wd8iby.#lkl.fl.usa.na is down due to lightning, and
my TNC is also non-operational. But my land-line BBS has Internet
E-mail, and is easy to access every day.
  My question is: Is there any "gateway" to packet on Internet or
FIDOnet through which I can send/receive messages into the Packet
network? Any information would be appreciated. Thanks in advance
for your help. 73s.....George
